

**oechsle display systems**

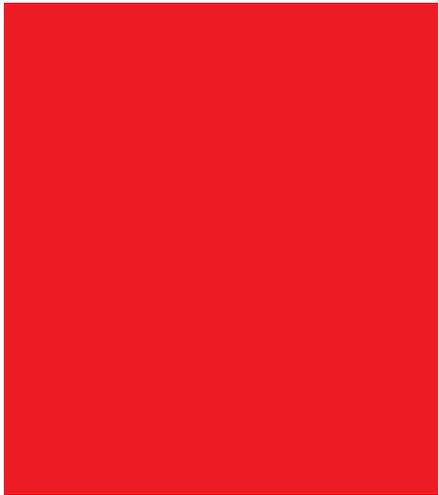

*reliable and innovative*

# HIGHLIGHTS 2007

**Dear business friends,**

„50 years innovative and reliable“ – to fulfill this promise we have been continuously working during the past months and are glad to present you the latest news made by Oechsle.

For sure, you will again discover interesting solutions all around the various kinds of product and price promotion right at the POS.

To get more ideas of our complete product range you should take a look at our main catalogue „**Display Collection 2005**“. Let yourself inspire by the variety of individual presentation possibilities offered by the Oechsle programme!

Concerning shelf care and shelf organisation management you will get detailed information in our newly designed brochure „**Shelf divider and pusher systems PRIMA**“ with solutions for an optimised product presentation on your shelves.

In the fields of screen and digital printing, acrylic displays and all aspects of the visual shop decoration our partner werba print & display as a leading specialist with long-term experience is looking forward to get challenged.

With OEK and werba on your side you are in best hands – we are taking care of all your needs!

We would be very glad to receive your specific product demand and any suggestions for an improved performance.

With the best wishes for a successful and pleasant cooperation,

Yours,  
Margit Oechsle  
Managing Director

„No matter how to twist and turn them“ - with these smart little helpers your goods will catch irresistible attention!

By means of the rotary ball-and-socket joint you are absolutely free and flexible in the various kinds of applications and use. Made of premium, non-breakable PC the Visionline products can be even placed into cooling counters without problems.

These products will be supplied as already assembled sets. Of course, any further combinations of the different parts for your very specific and individual needs are available upon request.

**As a team we are unbeatable!**

In the fields of screen and digital printing, acrylic displays and all aspects of the visual shop decoration our partner **werba print & display** is well-known as leading specialist.

As a problem solving agency with creativity, long-term experience and full-service they offer:

**STRONG PARTNER werba**

• **Printings**

Silk screen and digital printings on a variety of different materials, for indoor and outdoor use with highest resolution and colour quality: big-size posters, window foils, ceiling headers and banners, floor marking foils, vehicle marking, foils for illuminated displays, and much more

• **Acrylics**

No matter if simply bent products or sophisticated displays: lasering, milling, chamfering, super-sonic welding, laminating, ... are well-used methods of production

• **Price marking and signs**

Customised price cassettes for beverages, product displays and complete product marking systems with accessories developed according to most individual requirements

• **Shop decoration**

Creative design and implementation of complete promotion campaigns for all aspects of the visual sales promotion

**Your individuality is our speciality!**

werba is more than just a printing house.

Let us convince you!

We are very much looking forward to getting challenged.
