Twin-Set

Twin-Set presents your information in an attractive and efficient way - every day!

A highly convincing frame system - due to its exclusive style and the flexible combination of components. Frame and lower section can be combined in different colours to mark special departments or sales.

The basic frame can be used with or without lower section.

Individual LOGO printing or stickers on the lower section will complete the professional appearance of this series.

Of course, you can also use a number of elements for lateral attachment out of the *accessory range, series 100*.
